**\$28,990**

## WaveRunner Tips:

*Which one is best for you?*

### Utility and Capacity

When it comes to choosing a WaveRunner it's essential to know how you're going to use it, will it be used for tubing and fishing or to ride along the waves? Knowing the main activities you'll enjoy on your WaveRunner will help determine the configuration, utility and storage capacity needed for fishing rods, accessories and essentials.

### In-built systems and add-ons

There is a wide variety of different technologies used across the WaveRunner range. Some WaveRunners have innovative designs with touch screen displays and systems, while others have amenities to add digital accessories of your choice.

### Registration

Don't forget to make sure your boat and personal watercraft are registered before going out on the water.

## Days spent on the water means safety comes first!

The safe way is the best way to enjoy time on the water!

Before you head out on the water, ensure that all safety kits are updated and in an accessible place. As the days get warmer, the sun is stronger so make sure that shade is available, everyone is hydrated and following sun safety protocol.
