

# YAMARIN 50 BR

A touch of luxury in a compact form

# Yamarin since 1972 - Born to a winner

Yamarin was born out of a desire to make the best possible boat for the world's best outboard engine, Yamaha.

An engine that works especially in the demanding conditions of the Nordic countries and is embraced by the demanding boating people.

The result was so successful that in 50 years, Yamarin has grown into one of the leading Nordic boat brands, that offers enjoyable and safe moments to tens of thousands of boaters in the Nordic countries and Northern Europe.

# Since 1972

In 1972, the first original Yamarin models were born - the 380 and 420, which were 4-meter open-top boats powered by a 25-horsepower Yamaha.

In 1975, Yamarin's first Hard Top model was introduced: the 555 HT, which paved the way for Yamarin's future HT successes.

In 1977, just five years after the creation of its own boat brand, Yamaha rose from great unknowns to become the overwhelming and permanent market leader in outboard motors in Finland!

# Principles of Yamarin boats

## First class driving characteristics

- Effortless and enjoyable driving experience.
- Optimized engine power range for the hull.

## Safety

- Handling
- Easy access and moving in the boat - effortless and safe.

## Enjoyment

- Ergonomics that guarantee a pleasant and calm drive.
- Large versatile open areas for those unforgettable summer days!

# Yamarin 50 BR

**A touch of luxury in a compact size class.**

Like all Yamarin models, the novelty offers excellent driving characteristics combined with a stylish and modern design.

## A brand-new hull, modern lines and top of class wind protection

The solid windshield offers great protection, the sturdy black railings around the frame are not only practical but also complete the stylish design. The robust double shell construction offers stability and controllability

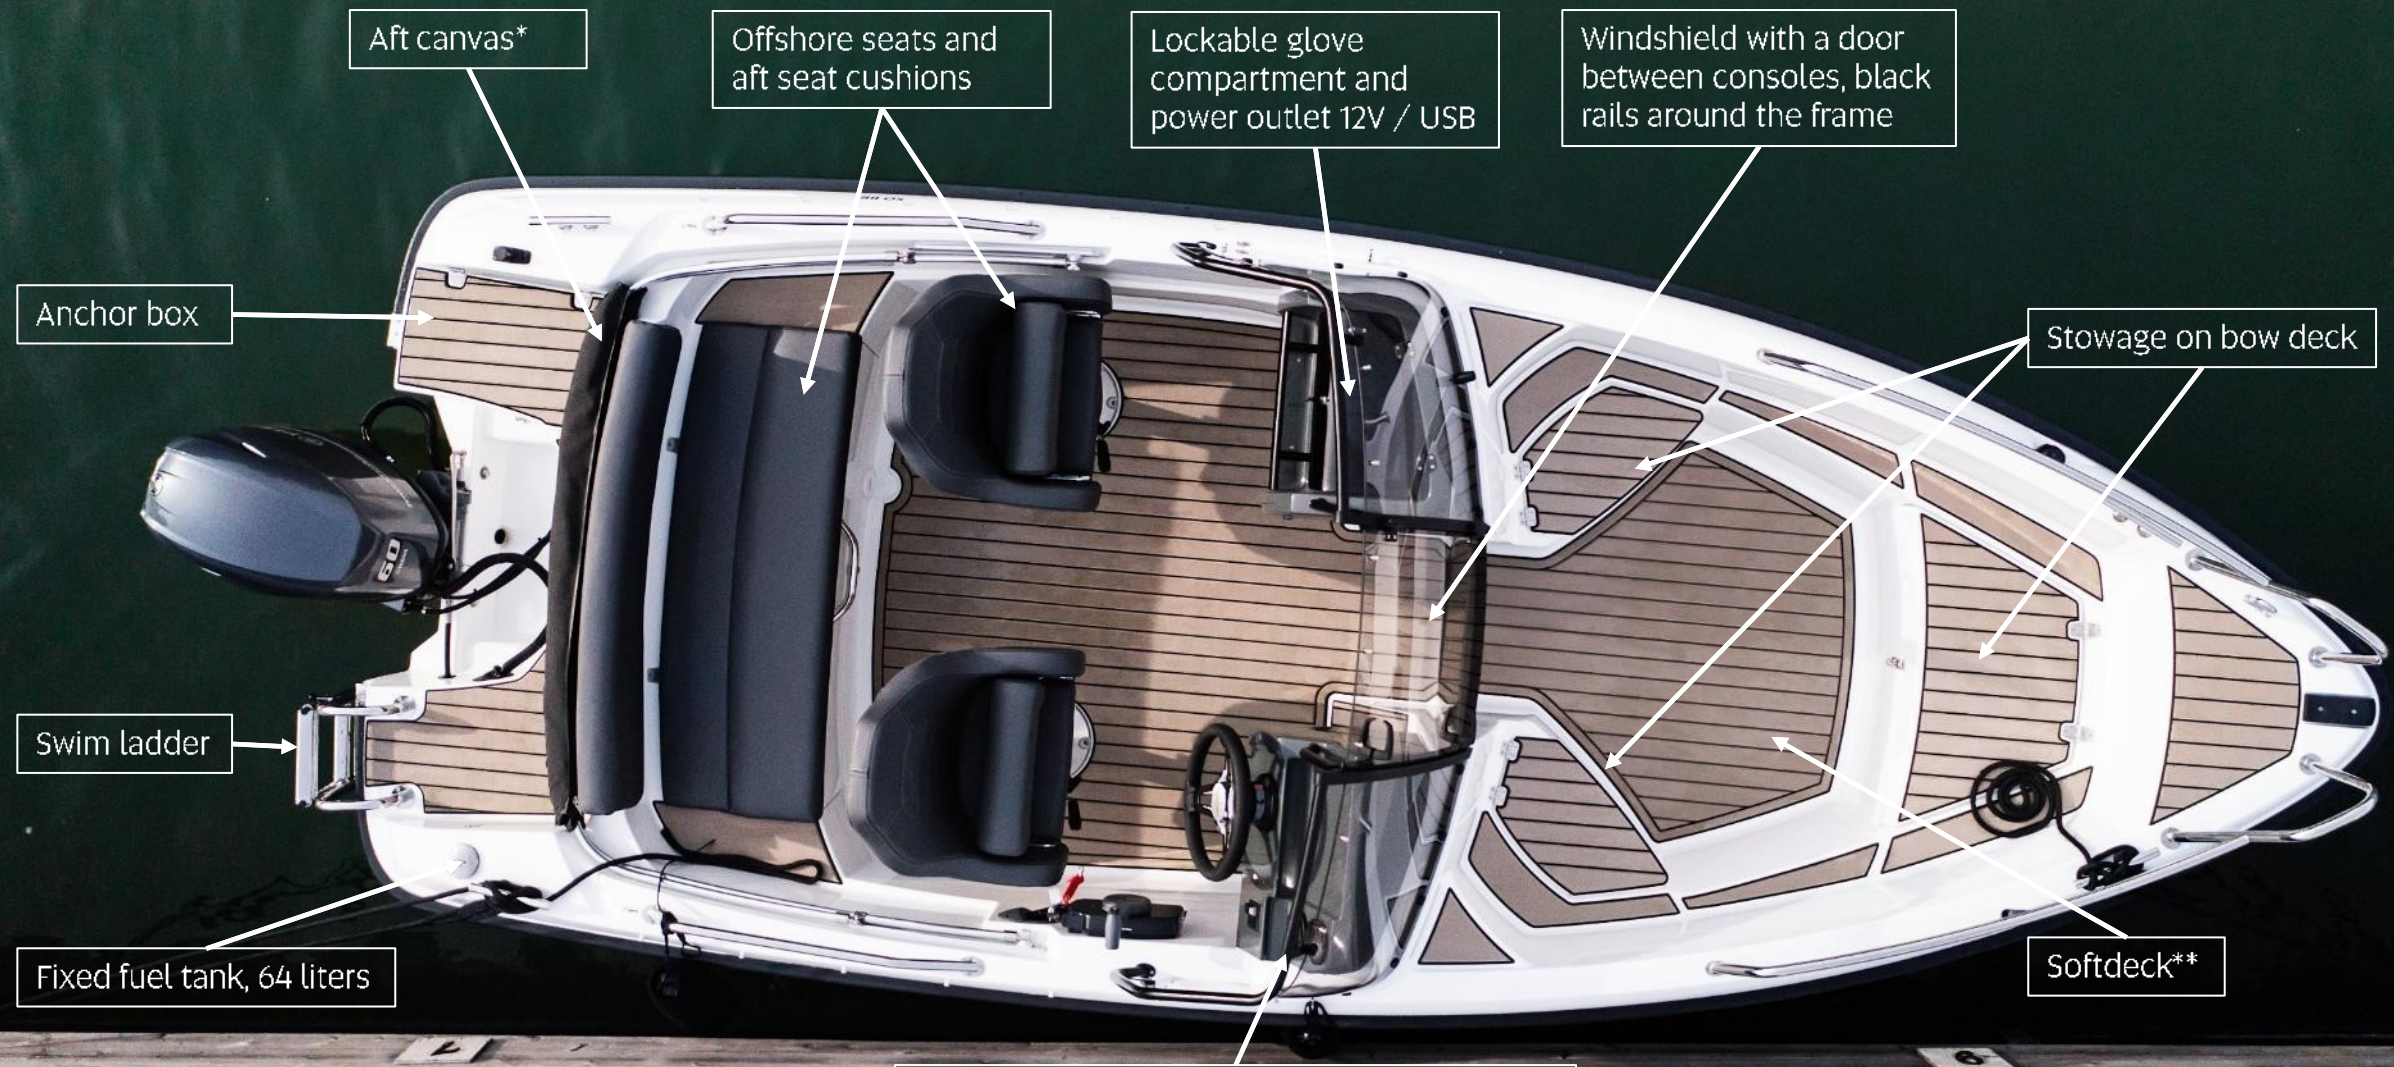

## Spacious and versatile

Plenty of space on the aft sofa and the bow deck, to enjoy those warm summer days out on the sea. Ideal for commuting, cruising and exploring the surrounding nature.
